EDUCATION

University of Oklahoma

Bachelor of Management Info Systems, Michael F. Price College of Business

May 2024
Norman, OK

WORK EXPERIENCE

Application Development Intern

Love's Travel Stops and Country Stores

May 2023 - Present
Oklahoma City, OK

- Worked with a team using the Scrum agile project management system to efficiently complete user stories
- Learned to implement the use of Angular and the Microsoft .NET suite of tools to build web applications
- Built a UI library of Angular components organized by an interactive Storybook sandbox and documentation application, hosted for use of multiple development and QA teams
- Grew closer to my coworkers by actively participating in volunteering opportunities and social events
- Networked with interns from many other companies in the OKC area at the annual InternOKC event
- Worked with GitHub making use of pull requests and contributions to interactively collaborate with my team members on various application development projects

Network Automation Intern

Love's Travel Stops and Country Stores

May 2022 - May 2023
Oklahoma City, OK

- Collaborated on automation projects using Python and PowerShell to automate lengthy employee tasks, streamlining efficiency and productivity
- Processed company data using SQL databases, enhancing decision-making and business actions
- Implemented the use of pandas for data manipulation in Microsoft Excel
- Participated in volunteering and team-building activities
- Connected with interns from other companies at three separate InternOKC sessions
- Invited to continue interning with my team throughout the remainder school year
